

# World Tourism Barometer

## Statistical Annex

Volume 16 • Issue 3 • June 2018

The following pages contain detailed tables on tourism related indicators such as international tourist arrivals, international tourism receipts and expenditure collected by UNWTO from national institutions, as well as data from the UNWTO Panel of Experts.

Tables reflect yearly data and monthly or quarterly data currently available. Most data is preliminary and may be subject to revision. See the Methodological Notes at the end of this annex for further information on the data.

The tables on the following pages are not included in the free extract of the UNWTO World Tourism Barometer. The full document is available in electronic format for sale and free for UNWTO members and subscribed institutions through the UNWTO library at:

### Contents

• International Tourist Arrivals by (Sub)region and Outlook	A-3
• International Tourist Arrivals and Tourism Receipts (local currencies, constant prices), World and Regions	A-6
• International Tourist Arrivals by Country of Destination (Top 50)	A-8
• International Tourism Receipts in US\$ (Top 50)	A-9
• International Tourism Receipts in euro (Top 50)	A-10
• World's Top Tourism Spenders	A-11
• International Tourism Expenditure in US\$ (Top 50)	A-12
• International Tourism Expenditure in euro (Top 50)	A-13
• Detailed tables by UNWTO regions and subregions: International Tourist Arrivals and Tourism Receipts	
- Europe	A-15
- Asia and the Pacific	A-17
- Americas	A-19
- Africa	A-21
- Middle East	A-23
• UNWTO Panel of Tourism Experts	A-24
• Methodological Notes	A-26

### Explanation of abbreviations and symbols used

\* = provisional figure or data | = change of series  
.. = figure or data not (yet) available n/a = not applicable

mn = million (1,000,000)

bn = billion (1,000,000,000) [note in Spanish 'miles de millones']

trn = trillion (1,000,000,000,000) [note in Spanish 'billones']

Q1: January, February, March

T1: From January to April

Q2: April, May, June

T2: From May to August

Q3: July, August, September

T3: From September to December

Q4: October, November, December

H1: From January to June

H2: From July to December

**YTD:** Year to date, variation of months with data available compared with the same period of the previous year. The (sub)regional totals are approximations for the whole (sub)region based on trends for the countries with data available.

### Series International Tourist Arrivals

TF: International tourist arrivals at frontiers (excluding same-day visitors);

VF: International visitor arrivals at frontiers (tourists and same-day visitors);

THS: International tourist arrivals at hotels and similar establishments;

TCE: International tourist arrivals at collective tourism establishments;

NHS: Nights of international tourists in hotels and similar establishments;

NCE: Nights of international tourists in collective tourism establishments.

### Series International Tourism Receipts and Expenditure

All percentages are derived from non-seasonally adjusted series in local currencies, unless otherwise indicated: \$: US\$; €: euro; sa: seasonally adjusted series.

For main concepts, definitions and classifications for the measurement of tourism, please see the International Recommendations for Tourism Statistics 2008 (IRTS 2008) at <[statistics.unwto.org/content/irts-2008](http://statistics.unwto.org/content/irts-2008)>.

The World Tourism Organization (UNWTO) is the United Nations specialized agency mandated with the promotion of responsible, sustainable and universally accessible tourism.

UNWTO's membership includes 158 countries, 6 Associate Members, two Permanent Observers, and over 500 Affiliate Members representing the private sector, educational institutions, tourism associations and local tourism authorities.

#### **About the UNWTO World Tourism Barometer**

The *UNWTO World Tourism Barometer* is a publication of the World Tourism Organization (UNWTO) that monitors short-term tourism trends on a regular basis to provide global tourism stakeholders with up-to-date analysis on international tourism.

The information is updated six times a year and includes an analysis of the latest data on tourism destinations (inbound tourism) and source markets (outbound tourism). The Barometer also includes a Confidence Index based on the UNWTO Panel of Tourism Experts survey, which provides an evaluation of recent performance and short-term prospects on international tourism.

The UNWTO Secretariat wishes to express its gratitude to those who have contributed to the production of this UNWTO World Tourism Barometer, in particular to institutions that supplied data, and to the members of the UNWTO Panel of Tourism Experts for their valuable feedback and analysis.

For more information including copies of previous issues, please visit: [mkt.unwto.org/barometer](http://mkt.unwto.org/barometer)

We welcome your comments and suggestions at [barom@unwto.org](mailto:barom@unwto.org).

Data collection for this issue was closed on 20 June 2018.

The next issue of the UNWTO World Tourism Barometer is scheduled for September 2018.

## European Union Tourism Trends

### Joint EU-UNWTO Report

The *European Union Tourism Trends* report provides a comprehensive overview of tourism in the European Union and constitutes a tool for policy makers and other tourism stakeholders for developing market strategies and enhancing the knowledge base of the EU Virtual Tourism Observatory.

The report is the outcome of a cooperation agreement between UNWTO and the Directorate-General for Internal Market, Industry, Entrepreneurship and SMEs of the European Commission (DG GROW) and is part of the 'Enhancing the Understanding of European Tourism' initiative.

A complementary download of the full report is available from:

- UNWTO e-Library at: [www.e-unwto.org/doi/book/10.18111/9789284419470](http://www.e-unwto.org/doi/book/10.18111/9789284419470)
- EU Virtual Tourism Observatory at: [https://ec.europa.eu/growth/tools-databases/vto/documents?name\\_list>All&field\\_type\\_tid=9040](https://ec.europa.eu/growth/tools-databases/vto/documents?name_list>All&field_type_tid=9040)

## UNWTO Elibrary

The **UNWTO Elibrary** is the largest online collection of publications and statistics in the field of international tourism. It includes over 1300 UNWTO publications and 900 regularly updated tourism statistics.

Find out at [www.e-unwto.org](http://www.e-unwto.org) or contacting [elibrary@unwto.org](mailto:elibrary@unwto.org)

*UNWTO Elibrary - where knowledge no longer depends on distance!*

## Methodological Notes

### About the data

The monthly or quarterly statistics included in this issue have been compiled by the UNWTO Secretariat based on preliminary data as reported by the institutions of the various countries and territories (e.g. National Tourism Authorities, Statistics Offices, Central Banks) through websites, news releases and bulletins, or provided through direct contacts with officials or through international organisations such as the Caribbean Tourism Organization (CTO), the European Travel Commission (ETC), Eurostat, the Pacific Asia Travel Association (PATA) or the South Pacific Tourism Organization (SPTO).

Information in this issue reflects data available at the time of publication. Data may be updated or revised without notice in future issues of the UNWTO World Tourism Barometer as it becomes available.

Countries that are not included, but which have monthly data at their disposal, are kindly requested to contact the UNWTO Secretariat at [barom@unwto.org](mailto:barom@unwto.org).

For the main concepts, definitions and classifications in the measurement of tourism, please see the International Recommendations for Tourism Statistics 2008 (IRTS 2008) at [statistics.unwto.org/content/irts-2008](http://statistics.unwto.org/content/irts-2008).

### International Tourist Arrivals data

In the tables on International Tourist Arrivals for the various UNWTO regions, series are chosen that can serve as an indicator of trends in selected destinations.

The monthly series represented do not always coincide with the annual series usually reported for the various countries (e.g. visitor arrivals or nights instead of tourist arrivals) and sometimes only relate to a part of the total tourism flow (e.g. air traffic, specific entry points). See 'Explanation of abbreviations and symbols used' for more detailed information.

The (sub)regional totals are approximations for the whole (sub)region prepared by UNWTO based on trends in the countries with data available.

### Ranking of International Tourism Receipts

It should be noted that changes in the ranking of international tourism receipts not only reflect relative performance of the destinations, but also exchange rate fluctuations of the local currencies against the US dollar. In 2017 exchange rate movements were rather limited, with the US dollar depreciating by 2% against the Euro. The US dollar-euro exchange rate moved from an average of 0.90 euro per US dollar in 2016 to 0.89 in 2017. This simplifies the analysis, as the effect of converting tourism receipts earned in euros (by euro area destinations) to US dollars was small in 2017. The US dollar did appreciate versus other currencies, by 5% against the British pound, by 3% versus the Japanese yen and by 2% against the Chinese yuan. In these destinations tourism receipts expressed in US dollars were lower due to the exchange rates, though to a small extent.

### International Tourism Receipts and Expenditure data

For destination countries, receipts from international tourism count as exports in the balance of payments (travel) of each country and cover all transactions related to the consumption of goods and services by international visitors, such as accommodation, food and drink, fuel, domestic transport, entertainment, shopping, etc.

They include transactions generated by same-day as well as overnight visitors. Receipts from same-day visitors can be substantial, especially in the case of neighbouring countries where shopping accounts for a large amount of spending by cross-border, same-day visitors.

International tourism receipts (travel) do not include receipts from international passenger transport contracted from companies outside the travellers' countries of residence, which are reported in a separate category (passenger transport).

For the (sub)regional totals, estimates are made by UNWTO for countries that have not yet reported results, based on the previous year's value and the trend for the (sub)region. Unlike arrivals, where revisions generally more or less balance out, receipts data tends to be revised upwards.

### Exchange rates and inflation

With financial data measured in different currencies it is complicated to accurately determine variations in relative terms, as receipts have to be expressed in a common currency like the US dollar or the euro and generally are also reported at current prices, thus not taking account of exchange rate fluctuations and inflation.

Exchange rate changes can substantially influence the values in US dollars reported from year to year. When the dollar appreciates against for instance the euro, worldwide receipts expressed in dollars relatively decrease, and vice versa in the case the dollar depreciates. In 2017 the US dollar depreciated 2% against the euro.

### Exchange rate US\$ to euro and vice versa, average for the year

Year	US\$ to euro	Change (%)	euro to US\$	Change (%)
2010	0.7543	5.2	1.3257	-5.0
2011	0.7184	-4.8	1.3920	5.0
2012	0.7783	8.3	1.2848	-7.7
2013	0.7530	-3.3	1.3281	3.4
2014	0.7527	0.0	1.3285	0.0
2015	0.9013	19.7	1.1095	-16.5
2016	0.9034	0.2	1.1069	-0.2
2017	0.8852	-2.0	1.1297	2.1

In order to account for exchange rate changes and inflation, international tourism receipts expressed in US dollar values (for reason of comparison) were converted back to the local currencies of each destination, weighted by the share in the total, and deflated by the relevant rate of inflation

## The UNWTO Tourism Confidence Index

The UNWTO *Tourism Confidence Index* is based on the results of an email survey conducted every four months since 2003 by the UNWTO Secretariat among a *Panel of Tourism Experts*.

The purpose of this survey is to collect opinions from tourism stakeholders worldwide regarding the performance of their destination/business in the last four months, and their expectations for the next four months.

### Methodological summary

#### Questions on which the indicators are based:

- *What is your assessment of tourism performance in your destination or business for the four months just ended (or about to end) as against what you would reasonably expect for this time of year?*

[ ] much worse ; [ ] worse ; [ ] equal ; [ ] better ; [ ] much better

- *What are the tourism prospects of your destination or business in the coming four months compared with what you would reasonably expect for this time of year?*

[ ] much worse ; [ ] worse ; [ ] equal ; [ ] better ; [ ] much better

At the end of the year, the questionnaire includes two additional questions on the performance of the entire year and on the expectations of the coming year which feeds into the forecasts issued at the beginning of each year by UNWTO.

In addition, participants are also invited to include a qualitative assessment in their own words. The analysis contained in the *UNWTO World Tourism Barometer* is in large part based on their comments.

#### Use of responses for calculation of the indicators

In each survey Panel members are asked to rate both the performance of the previous four-month period and outlook for the coming four-month period on the following scale: much worse [0]; worse [50], equal [100]; better [150], much better [200]. The average of all replies then determines the confidence index. A value below 100 indicates a deterioration of performance, while a value above 100 represents an improvement.

Results are broken down by region and by sector of activity. These breakdowns should, however, be interpreted with caution as they may in some cases be based only on a relatively small number of responses.

#### Weighting of respondents' replies

There is no weighting. The score given by each respondent has the same weight, irrespective of the size of the destination or sector of activity.

#### Sample

The number of regular respondents to the Barometer surveys stands currently at close to 300, spread across all regions and sectors but it is not a representative sample. However, the UNWTO Secretariat's aim is to continuously expand and improve the Panel sample. Experts interested in participating in the survey are kindly invited to send an email to [unwtopanel@unwto.org](mailto:unwtopanel@unwto.org).

#### Collection

The survey is conducted by email and the periodicity is trimestrial, with a collection of approximately 6 weeks, starting at the end of each trimester.

#### Publication of results

Results are usually published in January/February, May/June and September/October.
